- Vic Conant

Dear Friend,

In today's world, there's absolutely no reason why you shouldn't be making money hand over fist.

That's right - in *today's* world.

Think about it:

Never before have there been so many different ways to push your product to market ...

Never before have you had so much access to so many potential customers ...

Never before have you been able to get so much exposure at so little cost ...

In other words ... if you know what you're doing and you do it right, never before has it been so incredibly easy to:

- FIND your ideal customers,
- SELL them your product in record-breaking quantities, and
- PERSUADE them to tell other people to buy it, too - by the hundreds, thousands, even by the *millions*.

The golden fruits of this new era - **a tidal wave of cash pouring into your business from a dozen different directions** - are yours to start enjoying as soon as you want to ...

And ONE PERSON Can Show You HOW ...

Like you and me, MaryEllen Tribby is out there every day working to get a product she loves and believes in into the hands of the folks who need it most - and turn a healthy profit in the process.

She cut her teeth 25 years ago in the high-pressure New York publishing world, running

divisions and raking in profits at Forbes, Times Mirror Magazines, and Crain's New York Business.

From there she moved on to Weiss Research, where, as president, she led the company **from \$11 million in sales to \$67 million in just 12 months.**

As CEO of her last company, Early to Rise, she helped grow the business **from \$8 million in sales to \$26 million in just 15 months.**

Along the way she's also consulted for and advised hundreds of businesses and entrepreneurs across the country and around the world - including Nightingale-Conant!

All in all, her personal, hand-crafted marketing strategies and tactics have generated **MORE THAN \$650 million in sales** for her employers and clients.

And now, with this **unparalleled marketing playbook** in hand, she's moved on to her next big adventure: her own business, started ground-up from scratch and already outpacing her (extremely high) expectations.

When I first heard MaryEllen speak, I was dumbstruck. She was generating tens of thousands of new customers and millions of dollars using strategies I'd never even considered!

After listening to her for just 20 minutes, I knew that not only did we need to incorporate her brilliant marketing methods into *our* company - we also needed to get them into the hands of our great customers.

Wherever you are on the journey toward profitability, MaryEllen has been there too. She knows what it takes to sell huge amounts of product and generate off-the-charts profits.

She also knows that what she's done in her businesses, YOU can do in yours - faster, cheaper, easier, and with more outrageous results than you can even imagine.

It's a simple matter of putting into practice ...

The NEW RULES of Low-Cost, High-Profit Marketing

It wasn't that long ago that we had just a handful of ways to reach potential customers. TV, radio, print in a few different forms. That was about it.

Today, the number of marketing channels has expanded exponentially. Email, websites, blogs, Facebook, Twitter, RSS feeds, text messaging, webinars, teleconferencing ... the list goes on, with more popping up every day.

But it's not just a question of "more" and "different."

The emergence of these new channels has completely transformed the way customers interact with marketing messages across all media. The direct mail letter, radio spot, or space ad that worked gangbusters even five years ago would be dead in the water today.

Some marketers are so intimidated by these new realities, they ignore them completely, sticking with the channels they're used to and hanging on for dear life to their old tried-and-true strategies.

(I think of them as this generation's answer to the old buggy-makers, who clung to their dying trade instead of learning new skills because they were convinced that the automobile would never "catch on.")

Others make the mistake of abandoning fundamental marketing principles in the face of so much newness - and wind up falling flat on their faces.

(I wish I had a dime for every offensive banner ad and TV commercial out there, created by a misguided marketer who equates "edgy" with "insulting.")

But the business owners and entrepreneurs who are thriving, growing, and getting rich in this "brave new world" of marketing - and believe me, there are PLENTY of them — have found a **THIRD WAY**.

They've figured out how to ...

MASTER the timeless principles of profitable marketing that have been tested, refined, and proven over decades ...

ADAPT those principles to the changing landscape and unique dynamic of the 21st century marketplace, and ...

LEVERAGE them via a "**multi-channel**" marketing strategy that enables them to promote their product across a range of traditional and new outlets, including:

- **Online Marketing** - Websites, email, text ads, banner and pay-per-click (PPC) ads, search engine optimization (SEO) ... the Internet is the true promised land for marketers, with infinite opportunities to target, attract, communicate, dialog, and SELL, SELL, SELL. The profit potential is staggering ... but if you want to cash in, you've got to be in the game.
- **Social Media** - Facebook and Twitter are just the tip of this massive iceberg of opportunity - and deep pockets are NOT required. All you need is time and a few simple, savvy strategies to profit hugely (and in more ways than one) from this incredibly exciting new phenomenon.
- **The New Telemarketing Model** - Once the "ugly stepsister" of the marketing world, it's now a million-dollar baby for those who learn how to work this exciting channel.
- **Direct Mail** - Even in the age of email, it's still the king - and it's FAR easier and more accessible than most marketers think, with sky-high potential for profits and file building.
- **Print Advertising** - Too often overlooked, misunderstood, or dismissed altogether, but a vein of gold when tapped correctly.
- **Television and Radio** - Millions of eyeballs and ears, all fixated on YOUR product. If you create a spot that works, it can be a total game-changer for you.
- **Joint Ventures and Affiliate Marketing** - Others do the selling; YOU rake in the profits. It's a beautiful thing!

... and even MORE, so they're getting an astronomical return on their investment of capital and creativity.

The beauty of this multi-channel marketing approach is twofold.

First of all, multi-channel marketing allows you to get the maximum bang for your investment buck.

With a little know-how, you can use the elements that generate results in one campaign over and over again in other channels. Today's winning email headline becomes tomorrow's blockbuster website banner ad becomes next year's million-dollar radio spot.

It's like getting paid over and over for work you've already done!

But even better, a multi-channel strategy gives you protection from the market ups and downs you can't control.

If results in one channel start to sag - because of seasonality, trends, global events, or simple fatigue - you have plenty of income from other sources to keep you healthy, profitable, and thriving.

It frees you from constant worry over what might happen next and where the dollars will come from.

And THAT frees you to focus your energy and creativity where it belongs: on growing your business and keeping your customers happy.

Launching smart campaigns in even two or three channels will increase your profits, expand your customer base, and build your bottom line significantly.

But activate a few more and soon you'll ...

Have Cash Flowing into Your Business from So Many Directions, No Downturn Can Ever Touch You Again

I can personally attest to the remarkable power (and surprising simplicity) of MaryEllen Tribby's multi-channel marketing strategies. And now she's handing all of these strategies over to YOU in her Nightingale-Conant audio program *Channels of Profit: 12 Easy Ways to Make Millions for Yourself and Your Business*.

In *Channels of Profit*, MaryEllen gives you **everything she's learned, tested, tweaked, retested, perfected, and used to generate more than \$650 million (and counting)** for her businesses, her clients, and herself in 12 of today's most exciting and lucrative marketing channels ...

... From the "brave new world" of the Internet

... to familiar but changing media like mail, print, TV, and radio

... to underutilized and extremely profitable marketing avenues you may never have considered.

If you're CURRENTLY marketing through any of the channels covered in *Channels of Profit*, MaryEllen will show you how to revamp your campaigns so they're fresh, tight, powerful, and generating sales and new customers at a level you've never seen.

If there are marketing channels you HAVEN'T explored yet, she'll show you, step by step and detail by detail, how to get in cheap and market smart, and start profiting immediately.

Yes: IMMEDIATELY. Because in today's world, *that's* how fast you see results.

**Yes, I want to generate an avalanche of cash, customers, and
buzz for my business - fast, cheap, and easily!
I can try it for 30 Days - for JUST \$1!**

Multi-Channel Marketing Success Story #1:

A simple email leads to multimillion-dollar entrepreneurial success

Dr. David Keller was a family practice physician and consultant to a health publishing company who was looking for a better way to communicate with its customers and help them take charge of their health.

Email seemed like the fastest and most cost-effective way to achieve this goal. So he developed **a simple, low-cost email campaign** to keep customers informed and create a forum in which he could answer their questions and concerns.

Everyone who received his emails loved them. And as a result, today Dr. Keller owns his own multimillion-dollar online publishing business, connecting his subscribers with the health products and services that empower them to lead vibrant, energetic lives.

Don't Run from Today's New Marketing Opportunities - MASTER Them

There's no getting around the fact that if you want to grow and profit in today's marketplace, you need to be marketing online. The good news is, no channel offers so much return for so little risk.

In *Channels of Profit*, MaryEllen will show you how to get a handle on the massive potential of the Internet, zero in on the opportunities that hold the most potential for your business, and start cashing in on them NOW, including:

- **WEB NOVICES TAKE NOTE!** Why your online success has nothing to do with the Internet
- **The one marketing tool that's a necessity today, not an option.** The sooner you start using this gem, the better. And the *better* you do it, the bigger the payoff - in customers, profits, reorders, and referrals. She'll tell you how to get it up and running, and bringing in cash fast.
- **How to create irresistible Internet ads.** Online ads are cheap, fast, and packed with potential. Text, banner, insert, endorsed, PPC - MaryEllen defines and simplifies the vast and expanding universe of ad types and tells you how to craft them and where to place them so that you get people clicking by the millions.
- **10 unbeatable secrets to an explosive direct response email campaign -even on a shoestring.** A promotional email can transform your business overnight ... or flop miserably. These 10 factors are what make the difference. From how long your copy should be, to what your bullets should say, to the campaign element that's more important than any other, MaryEllen tells you exactly how to turn simple email sends into a cash-generating machine.
- **The 6 golden email intros.** In the history of direct response marketing, six leads for letters have dominated. Kick off your copy with any one of them, and the chances of it succeeding will skyrocket.
- **A ZERO-COST way to ignite a firestorm of buzz across the Web.** (Tim Ferriss went from being an unknown writer to a *New York Times* bestselling author, all thanks to THIS secret. You can easily do exactly what he did with your product - and there's no reason why you won't experience just as explosive an outcome. MaryEllen will tell you how.)
- **Get your site to the top of the Google results page!** Lots of businesses sell what you sell. Search engine optimization (SEO) is how you make sure people find YOUR website instead of theirs. The better-optimized your site, the higher your ranking on search engines like Google, Yahoo, and Bing, and the more visitors and buyers you'll get. MaryEllen gives you the A-to-Z of good SEO so you can quickly and easily optimize your site for instant, dramatic results.
- **How to make pay-per-click ads PAY.** The Internet's answer to Yellow Pages ads, PPCs offer you instant results and infinite opportunities to test, change, and refine your messaging. She'll give you the dos and don'ts of this exciting ad form.
- **The single most effective way** to establish, defend, or boost your company's CREDIBILITY. (Don't underestimate your need for this! In our era of corporate scandal and consumer mistrust, it's more important than ever.)
- Get an **IMMEDIATE SPIKE in your site traffic and buying activity.** These three easy-to-implement tactics will do the trick.
- **The well-intentioned mistake** that brought Wal-Mart's social media effort to its knees. (Don't let it happen to you!)
- **Could your website be ALL WRONG for your business?** There are three main types of sites, and knowing which one is the right one for you is critical to your ecommerce

success. The wrong site/product match can have disastrous results.

- **The list rental mistake** you'll be tempted to make - and why you **MUST** resist
- **The WILDLY EFFECTIVE ONLINE STRATEGY** small companies are using to level the playing field and edge out their bigger competitors. (It makes you look "important" in the eyes of potential customers and automatically increases their trust and confidence in you. And it's SO EASY!)
- **A "forgotten" but extremely cash-rich market** - and the incredibly easy and FREE way for you to reach it
- The **MIRACLE TECHNOLOGY** that can put your name and ideas in front of millions of potential customers regularly and automatically - every single day. (And you don't need to know a thing about "technology" to use it!)
- **A perfectly legitimate reason** someone might not buy from you online - and the easiest way to remove it. (As a consumer yourself, you know what a huge concern privacy is. This simple step will make people much more comfortable purchasing from you!)
- **And MORE!**

Multi-Channel Marketing Success Story #2:

From unpublished unknown to literary stardom, courtesy of the Internet

Tim Ferriss was an unknown writer with a manuscript no publisher wanted to look at.

But Tim believed in his book. So instead of abandoning it, he devised **an easy and completely FREE two-part strategy** for generating buzz about it on the Internet.

The strategy worked. The buzz about Tim's book was huge, leading to appearances on TV talk shows, speaking engagements at live events, and massive publicity. Today, Tim is a celebrated author, and the second edition of that same "un-publishable" book hit #1 on the New York Times bestseller list.

Mine the 'Acres of Diamonds' You're Sitting on Right NOW

The advent of online marketing hasn't killed traditional media channels such as direct mail, print, radio, and television. On the contrary, they're stronger than ever for you - when you know what you're doing!

In *Channels of Profit*, MaryEllen will tell you how these channels have changed, how they haven't, and what you can do to generate more customers and cash from them than ever before by engaging "old media" in creative and innovative ways you may never have thought of, including:

- **How to capitalize** on the one technology 100% of your potential customers have mastered
- **The fast, cheap, easy way** for you to bond with your customers
- How to turn **one hour's worth of work** into a reliable \$13K-a-month income stream
- **The MARKETING GOLDMINE you're missing out on.** In the cell phone age, this once-maligned channel has had a top-down makeover. MaryEllen will tell you how to quickly establish it as a respectable and HUGELY profitable part of your business that actually

makes your customers happier with you. (And did I mention it COSTS ALMOST NOTHING to get it off the ground and generating cash?)

- **Your entire business right in your pocket!** Here's how ...
- **The businesses that are most ripe** for a telemarketing revenue bonanza. (Just about anyone will profit from a telemarketing campaign. But if you're in one of THESE, it's a channel you'd be CRAZY to ignore ... a cash avalanche is a sure thing.)
- **What to do within the FIRST 60 SECONDS** of a phone call that will make the customer on the other end putty in your hands
- **The 10 telemarketing mistakes MaryEllen has made** - revealed here so YOU don't make them
- **Is telemarketing NOT for you?** Take this into consideration before taking action
- The undisputed king of direct response marketing. Fast, cheap, safe, and with the potential to grow your business and profits almost overnight, there's nothing quite like it. **If you aren't marketing through *this* channel, you need to start NOW!**
- A blockbuster direct mail campaign in **7 EASY steps**
- The too-often neglected element that can **double the response to your marketing piece, or kill it** (and how to make sure it does the first)
- **Will your offer work?** Run it through MaryEllen's "10 TEST RULE" *before* launching, and you'll know for sure.
- **What's really going to make a prospect** buy your product? (Hint: it's *not* your product!)
- **Massive brand exposure** - yours practically FREE
- **The FATAL MISTAKE** many marketers make when it comes to print advertising. (But if you do it right, it will become one of the simplest, strongest, most reliable income sources you've got!)
- **The RED FLAG of print publications.** If you see this, pull your ads and dollars out immediately.
- Are you getting a **good ad rate** ... or being taken for a ride? This simple formula will tell you instantly.
- **The little-known secret to getting prime print real estate at a rock-bottom price.** MaryEllen used it herself, and instead of spending \$10K on a space ad and taking a bath, she spent a tiny fraction of that - and got a **347% ROI!** Here's what you do ...
- **The #1 reason why space ads fail** - it's not what you think! (Bad copy? Nope. Bad placement? Uh-uh. It's the simplest step of all, yet even savvy marketers overlook it all the time. Don't make the same mistake when it's so easily avoided.)
- **A quick-and-dirty way** to test your copy on the cheap before you commit real ad dollars. (You'll have results within hours, and if they're not what you'd hoped for, you haven't lost a thing.)
- **Get paid over and over again for work you've ALREADY done.** MaryEllen's "slice and dice" approach is the key.
- **The amazing Super Bowl ad story** that might change your mind about the potential of TV as a viable marketing channel for you
- **The one UNFORGIVABLE SIN** in a television ad. (If you're considering venturing into television, you need to know about this. It will kill your spot's chances of success. And it's not what you think!)
- **Will your product sell on TV?** Answer these 3 easy questions and you'll know for sure. (If you can't answer yes to all of them, this channel isn't worth your time or money. If you can, you're golden. And MaryEllen will give you her proven guidelines for creating TV

spots that generate big-time dollars - including MAGIC AD LENGTH for getting your audience to eat out of your hand ... and the MAGIC PRICE POINT that will make your product irresistible.)

- **7 steps to a highly profitable radio campaign.** The dollars-and-cents results radio can deliver rival that of its more "glamorous" media counterpart - and you can do it cheaper, faster, with more testing opportunities and less risk.
- **How to choose the right partners and avoid the wrong ones.** A partnership can make you or break you, so you need to proceed with caution and care. The guidelines MaryEllen uses when evaluating potential partners have never failed her ... in fact, they've led her to some of her greatest successes ... and they're yours for the taking!
- The 4W/1H guide to successful event planning. Approached and executed correctly, live events can be **phenomenal money-makers**. This is how ...
- **A disaster-prevention checklist:** Running a live event? Make sure you've got these bases covered, and you'll have a fun, problem-free, and PROFITABLE day.
- **PR dos and don'ts.** PR is an important part of any overall marketing strategy. But forget the time and money wasters that a lot of businesses get sucked into. Follow these strategies instead and get tons of publicity without risk or expense.
- **Want to start a PR firestorm?** Find this one thing in your business, and then get it into these people's hands.
- **How to create a press release with POWER.** How to write it, whom to send it to, whom to ignore.

**Multi-Channel Marketing Success Story #3:
Smart partnerships push profits to \$60 million**

Agora was a \$1 million newsletter publishing company that wanted to be more. They saw an opportunity in the finance and investment market. The only problem was, no one within the company had any expertise in these fields.

Rather than spend time and money expanding their staff, they began to form a series of **strategic, risk-free, win-win partnerships** with outside people who had the knowledge Agora was lacking but needed the customer base they could provide.

The partnerships thrived. The company expanded. And Agora grew from \$1million in annual sales to \$60 million.

- **3 letters** you MUST NOT IGNORE if you want your marketing efforts to work
- The "low-hanging fruit" of your business you can start reaping immediately for an **INSTANT harvest of cash**
- **No product? NO PROBLEM!** One of MaryEllen's most successful marketing campaigns ever was launched long before the product existed ... or had even been fully thought-out. By the time she had it ready, she also had a huge file of happy, eager customers all

set to buy it. If you're long on ideas, this easily replicable strategy is for you.

- The simple secret that can empower you to **earn FIVE TIMES MORE than your direct competitors**. That's what it did for MaryEllen in her very first job.
